Happy Holidays Edition

We're almost at the end of 2023. It's been another busy year for us, and I'm guessing it's been pretty busy for you, too. With Christmas just around the corner, we've brought you a bit of festive fun and an opportunity to win some great holiday loot with this year's prize draw. Read on below to try your luck.

We've seen some big changes this year, with AI taking centre stage. Customers are curious but a bit cautious, trying to figure out what it means for them. It's an area that we've been involved with for some time, particularly in our [Innovation Lab](#). There's a lot to gain, and we're here to ensure you can make the most of it whilst managing risk and ensuring good governance.

What else has happened this year? We acquired Tauranga-based cyber security firm Cybersmart, expanding our cyber security services to our customers. We're also pleased to be working with 14 new technology partners (taking us to a total of 79) to bring you the best solution to meet your needs.

Our involvement with the wider community keeps growing. We thoroughly enjoyed being involved with the Pork Pie Charity Run (a KidsCan initiative) and continue to support the next gen of tech talent via internships and our own Te Ao Māori scholarship. Next year, we'll resume adventure racing in support of Cure Kids.

In this edition of Thetagram

Our annual [holiday prize draw](#) is back. Enter below for your chance to win some big prizes!

And explore the latest content from our team. Dive into Head of Digital Jeff Wogen's insights on application migration strategy, learn from Collab Consultant Darion Mannie's experiences with our internal Viva rollout, watch Joerg Rau's on demand virtual event discussing the newest Business Central updates, and don't miss our insightful interview with App Specialist Hamish Norton.

The holidays are a good reminder to keep your guard up and book your annual cyber review for the New Year (highly recommended by our cyber security team) and learn how EVA Check-in's supplier management solution can reduce your supply chain risk.

Wishing you and your whanau a safe and relaxed holiday break.

Rob Lee, CEO

[Migrating to the cloud?](#)

"Developing a robust cloud strategy takes time, but it's time well spent. The months (sometimes years) spent rectifying issues due to lack of strategy – not to mention the extra costs – far outweigh the time you'd invest in creating one."

[More from Jeff, Head of Digital](#)

[ThetaVerse has landed](#)

We're in the early phase of our Viva adoption (named 'ThetaVerse'), and we've learnt a few lessons we think you'll benefit from if you're considering Viva for your business. Read recommendations from Collab Consultant Darion Mannie.

[Get up to speed with the latest updates](#)

It's been another year of big updates for Dynamics 365 Business Central. Here are some of the key ones you need to know about, plus our thoughts on Copilot for Dynamics 365 Business Central.

[Watch our virtual event recap](#)

[Mobile apps decoded](#)

We interviewed Theta's Senior Digital Consultant Hamish Norton to find out all things app-related: from their future in a world of AI to the #1 piece of advice when designing and building your ultimate app.

[Explore mobile apps with Hamish](#)

Enjoy the holidays. See you in 2024!
